

After Some days Mrs. Draupadi Murmu is going to be the New President With a net Worth of more than 12 lakh crore. Yes, You heard it right .The Net portfolio of the president of India is now **12,88,280 Crore**.Last time president Ramnath Kovind became the President with 11,71,883 Crore.But What is the logic Behind it ?

Apart from 4 storied Rashtrapati Bhawan,340 rooms and 193 acres garden The president of India gets 72 Stocks Which make his portfolio this much.The Government companies Like **LIC,SBI,ONGC,NTPC,Powergrid** etc. are under the Government of India.Whenever These government companies are listed in Stock market,they are listed under the promoter name President of India.So, the Total share in these companies makes this fat portfolio.

According to you,Who was the **Best president of India ?** Comment Below.
